

# FaxWise Client

*Send faxes to and from  
GroupWise using Tobit's  
FaxWare and EMF's  
FAXWISE CLIENT*

## Overview

EMF's **FAXWISE CLIENT** is a GroupWise enhancement that allows you to send faxes to and from GroupWise using Tobit's FaxWare. With **FAXWISE CLIENT** you can "print-to-fax" or attach documents in their native format (WordPerfect, Word, etc). Use your GroupWise address book for fax numbers. Select customized cover sheets. Receive fax job status via email.

## Features & Benefits

- Enhance GroupWise to include faxes as a message type.
- Maintain a single address book
- Fax directly from most software applications
- Send to one recipient or to many
- Receive faxes electronically
- View, edit, sign and forward faxes on screen without leaving your seat
- Paperless solution - store faxes electronically
- Save time reading and filing
- Reduce postage costs and telecommunications expenses

## Licensing

5 User License  
25 User License  
50 User License  
250 User License  
1000 User License  
Server License  
Additional Server License
